.... Teaching philosophy statement

- "... a **systematic and critical rationale** that focuses on the important components **defining effective teaching and learning** in a particular discipline and/or institutional context" (Schonwetter et al 2002, p.84).
- "A Teaching Statement is a **purposeful and reflective essay** about the author's **teaching beliefs and practices**. It is an individual narrative that includes not only one's beliefs about the teaching and learning process, **but also concrete examples** of the ways in which he or she enacts these beliefs in the classroom. At its best, a Teaching Statement gives a clear and unique portrait of the author as a teacher, avoiding generic or empty philosophical statements about teaching." (Centre for Teaching @ Vanderbilt University: <https://cft.vanderbilt.edu//cft/guides-sub-pages/teaching-statements/>)
